## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The rejection of Claims 8-14 are rejected under 35 U.S.C. 112, is withdrawn. Claims 8-11 have been amended to clearly define the invention as a method of making and claims 12-14 have been amended to clearly define a product by process claim.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 8 and 9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kobayashi et al. (Kobayashi)(US 4,589,299). Kobayashi teaches a worm formed on the end of an armature shaft by rolling with a sleeve bearing between the armature and the worm. The method of making is inherent in the disclosed structure.
4. Claims 8, 9, and 12-14 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Thrasher, Jr. et al. (Thrasher)(US 4,885,948). Thrasher teaches a motor with a shaft with a worm formed by rolling and having a larger diameter than the shaft. Thrasher teaches a bearing 28 between the armature core and the worm with fingers that bear against the shaft. The method of making is inherent in the disclosed structure.

***Allowable Subject Matter***

5. Claims 10 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments filed 10/10/02 have been fully considered but they are not persuasive. The Applicant's argument, for both Kobayashi and Thrasher, that the worm must be formed after the mounting of the armature assembly is not persuasive because the limitation is not claimed in claim 8. The Applicant's argument that the bearing seat of Thrasher is not fixed to the shaft is not persuasive the limitation is not claimed. The bearing seat of Thrasher is mounted on the shaft between the worm and the armature core because the spring fingers maintain sliding contact with the shaft because the inner diameter of the fingers is less than the shaft.

***Conclusion***

7. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
